meridianlink®
connecting you to better

> "We've witnessed a much faster turnaround time in getting back to customers with a decision; and when we're getting back to them that quickly—and they haven't moved on— that means we're closing more loans."
>
> —Dean Bank

meridianlink® consumer

You have a vision and you want to see it through to execution with engaged team players and staff. Members and customers are clearly expressing their expectations, they want a digital-first, smoother process managing their finances and you should be their trusted advisor. Not an easy feat. When it comes to vetting services and implementing the most appropriate software to achieve scalable growth - it shouldn't be overwhelming. We've been serving the needs of credit union and bank leadership for over 20 years with reliable industry expertise. We get it.

MeridianLink Consumer is an end-to-end loan origination and account opening software system, providing a full suite of lending products for financial institutions. Having a full set of robust capabilities will enable your institution to solve for the following:

- Remove account opening delays

- Eliminate manual processes

- Consolidate and streamlines applications from all channels
